

Ninja 2

Turf-Type Tall Fescue

Agronomic Characteristics

- Excellent Traffic Tolerance
- Excellent Disease Resistance
- Drought Tolerant
- Very Dense Turf under Low Mow Conditions
- Good Color Genetics

Ninja 2 ranks very high in the research conducted both by NTEP and Rutgers University in Low Mow Traffic Tolerant conditions. With lower mowing heights *Ninja 2* will have a narrower leaf texture and a dense stand of turf which will make it an excellent choice for sports fields and other high traffic areas that need to have a lower mowing height.

Turfgrass Performance Data 2003 NTEP Progress Reports

Turf Quality Mean Ratings

<u>Variety</u>	<u>Traffic Stress</u>	<u>Brown Patch</u>	<u>Summer Density</u>
Ninja 2	5.2	6.4	7.5
Falcon IV	4.8	6.3	7.3
Titan Ltd.	4.6	5.8	7.3
Rebel Sentry	4.5	5.8	7.1
LSD	0.6	0.7	0.4
