

PHENOM

GRAY LEAF SPOT RESISTANT PERENNIAL RYEGRASS

Phenom perennial ryegrass is the result of years of research and turf grass breeding. **Phenom** was bred out of top material and selected for Gray Leaf spot resistance. Why is this important to you? Less disease means fewer bare spots in the turf which translates to fewer weeds and happy customers. The photo to the right shows the progress that was made in the breeding. **Phenom** has a dark, bright green color and is dense variety with excellent turf quality. **Phenom** can be confidently recommend for many applications including golf course tees and fairways, sod farms, athletic fields and parks, and home lawns. **Phenom** works great in blends or mixes too!
